---

## Education

*The University of Alabama, Tuscaloosa, AL*

August 2013 — May 2017

- B.S. in Computer Science and Applied Mathematics
- Cumulative GPA: 3.70
- Honors College
- Computer-Based Honors Undergraduate Research Program

## Honors and Accolades

- National Merit Finalist
- University of Alabama Dean's List, Fall 2013 and Fall 2015
- University of Alabama President's List, Spring 2014
- Computer-Based Honors Fellowship Scholarship Recipient

## Professional Skills

- Proficient in GNU/Linux, Git, and Bash
- Languages: Fortran, Java, Scheme, JavaScript, Go, and especially C++ and Python
- Moderate experience in web development and Android development
- Strengths in CS: cryptography, algorithms, and data structures

## Work Experience

Lab Manager, *Computer-Based Honors Program*

March 2014 — Present

- Manage a computer lab with Windows, OS X, and Linux machines
- Solve technical problems for students
- Administrate and monitor servers providing various services

## Volunteer Experience

Delivery Lead, *Code for Birmingham*

May 2015 — Present

- Monitor and coordinate teams working on CFB projects
- Communicate with new and potential members
- Research potentially redeployable projects

## Research Experience

Undergraduate Researcher, *Clemson University*

June 2014 — July 2014

- Developed a linear programming solver in C++
- Built a web interface for modeling heterogeneous networks
- Utilized git, L<sup>A</sup>T<sub>E</sub>X, PHP, JavaScript, and other technologies

Undergraduate Researcher, *University of Alabama*

September 2014 — April 2015

- Worked under Dr. Jeremy Bailin through the Computer-Based Honors Program
- Automated the creation of synthetic images of simulated galaxies using Python scripting
- Solved technical issues with running the SUNRISE radiative transfer code on a supercomputer
